

MOTORISATION BENEFITS

- **Convenience**

Motorised Roller Blinds are easy to operate with a remote control, smartphone app, or voice command, eliminating the need to manually adjust the blinds.

This convenience is especially useful for large or hard-to-reach windows.

- **Energy Efficiency**

Motorised Roller Blinds can help you improve the energy efficiency of your home all year round. You can easily control the amount of sunlight entering your space, allowing you to regulate indoor temperatures and reduce reliance on heating or cooling systems, leading to potential energy savings.

- **Privacy & Security**

Motorised Roller Blinds provide enhanced privacy by quickly and smoothly closing the blinds when needed. They can also be programmed to open and close automatically, giving the impression of an occupied home, enhancing security when you are away.

- **Safety**

Motorised Roller Blinds are cordless, making them a safer option, particularly for homes with children or pets. The absence of dangling chains reduces the risk of entanglement accidents.

- **UV Protection**

Extend the life of your furnishings and protect items vulnerable to UV with Motorised Roller Blinds.

Customised schedules can track the path of the sun throughout the day, taking care of your property when and where necessary – while still taking advantage of the sun where you need it.

MOTORISATION BENEFITS

- **Control & Coordination**

Set custom schedules to fit your lifestyle or respond to the weather as it happens with the easy-to-use Connector+ app and Google Assistant/Amazon Alexa integration. Coordinate your blinds with your thermostats, lighting, or camera systems. Full control over your blinds is at your fingertips, whatever your needs and preferences.

- **Mobility Assistance**

If you or someone in your family has difficulty opening or closing their blinds, smart blinds with remote controls, scheduled movement, or voice control using Alexa or Google Assistant can enable you open and close your blinds or curtains without assistance.

- **Sustainability**

Reduce your energy consumption and make your home more efficient with better temperature regulation, and more effective use of natural light and warmth, even when you are not at home. The UV protection provided by smart blinds and curtain tracks extends the life of your furnishings.

- **Remote Access**

Motorised Roller Blinds can be controlled remotely through a smartphone app, allowing you to operate the blinds even when you are not at home, providing added convenience and security.

- **Enhanced Aesthetics**

Motorised Roller Blinds present a clean and uncluttered appearance, adding a touch of modernity and sophistication to your interior décor.
